

Retrofitted Car For Physically Challenged
(Hand operated controlling of vehicle)

Innovator : Sh. Muzib Khan
City : Jaipur
State : Rajasthan

Brief Description

The innovation is especially aimed to enable physically challenged persons to drive their vehicles. It is facilitating a system in which all the foot operable tasks in normal cars or like vehicles are now readily operated by hands. The accelerator, clutch and brakes operation are given in parallel to have better safety.

Salient Features

- Innovation is adjustable to specific needs of physically disabled person depending upon the extent of disability.
- It makes the possible that a physically challenged person can also run the vehicle comfortably
- Easy operation
- The conversion cost is affordable and much lower than of standardized ones.

IPR Status

Patent filed

Price:

Approx Rs 20000/- per unit of conversion in a Maruti 800 model and may little vary depending upon the type of vehicle

Current Status

The Innovator is doing the conversion work for different kind of vehicles himself. The technology is available for licensing, assignment etc.

Special Achievements

Awarded by the National Innovation Foundation, Ahmedabad
